Data declared by the owner, not verified.

Theoretical value

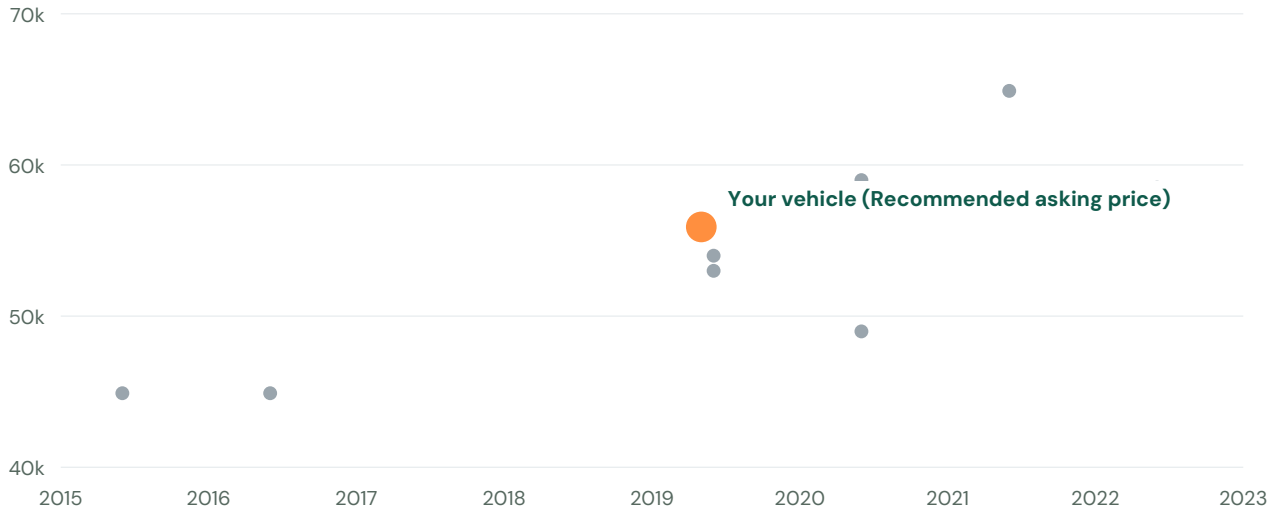

Current new price of an equivalent model, reduced for age, then adjusted for mileage, equipment and condition.

Current reference new price (segment average)		CHF 95'000
Depreciation (7.5 years)	× 0.533	CHF 50'588
Mileage	× 1.033	CHF 52'270
Added equipment	+ 3'228	CHF 55'498
Condition and history	× 1.020	CHF 56'613
Theoretical value		**CHF 56'613**

Market analysis

8 similar listings were used. Each price is adjusted to your vehicle (age, mileage, equipment), then converted into a likely selling price.

Season	– CHF 508

How the value is calculated

Theoretical value	CHF 56'613	× 50 %
Market analysis	CHF 49'790	× 50 %
Private sale value		**CHF 53'200**

Selling tips

- Sell between March and June if you can: demand is highest.
- Have the service book, latest leak test and MFK report ready.
- Take 20 to 30 photos in daylight, tidy interior, body and cab.
- Get paid before handing over the keys: transfer received or cash at the bank. Beware of rushed remote buyers.

Method and limits

This valuation combines a theoretical value with an analysis of listings published on AutoScout24.ch and caravan24.ch (data as of 14.11.2026). It relies on the owner's information and does not replace a technical inspection. It is not a price guarantee.
